

Application profile

"Hokulele"
11.2m (37') Motor Yacht

SUN JUAN ISLANDS, WASHINGTON, USA

The **WhisperGen™** onboard heat & power system was installed on this new 37' Nordic Tug in February 2007.

'Hokulele' is kept on the moor for 5 months of the year and the owner will use the **WhisperGen™** onboard heat & power system to supply the battery charging during these months. The unit also will run periodically to provide space heating heat.

The owners are looking forward to the first full season of cruisin off the west coast of the US and in Canada.

The boat is kept in at Friday Harbor in the Sun Juan Islands, which are located just north of Seattle.

DISTRIBUTOR: Cascade Engine Center LLC.

BUILDER: Nordic Tug.
